## TO THE GROUCHY MAN

## OF PAW PAW

It is natural for some men to be nice, with others it is an effort. I have had the fun of meeting with one grouch since I have been associated with the "Equitable". He became peeved, because I offered to present his wife with an "Equitable" check for \$10,000 when he died.

W. R. Sellick.  
Equitable Life Insurance Society of the United States.

## Henry P. Davison Says:

"It is impossible for me to convey to you my appreciation of your co-operation with me and my associates in the great work of the Red Cross in this great crisis. You certainly should enjoy the satisfaction of contributing to a degree which few if any can contribute, and at a time when it is of vital importance to our people and the country."

"You have a very great responsibility, and are certainly acquitting yourself in a way which should give you satisfaction all your lives."

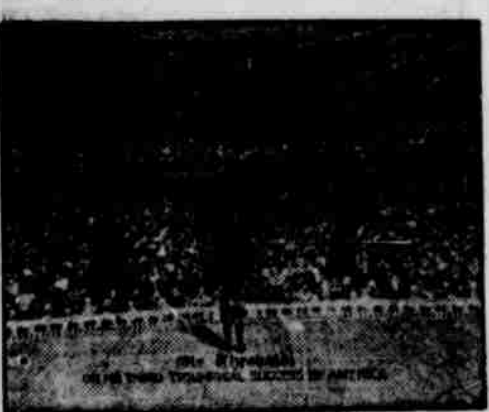

—From an Address Before the International Lyceum and Chautauqua Association.

## ROMANCE OF THE VIOLIN, "THE EMPEROR"

Four of Theobald's violins. The second from the right is the famous "Emperor," valued at \$25,000.00.

On the 10th of October, 1875, Ole Bull sat at a banquet at Christiansburg with his slim fingers, stroking the curly locks of Ole Theobald, who was to be his successor, and told his friends the story of his greatest violin, the "Caspardo-da Salo," which he called "The Emperor" because of the sculptured face of Emperor Titus on the scroll. It was at this banquet that the violin was promised to Ole Theobald, but the presentation was not made until 1890, when Theobald returned from his first world tour. Dr. Theobald will use this violin among others during his concert here at the Chautauqua.

## Vice President Marshall Says:

"I have great confidence that a large majority of people want to do right, and, in their relations to the government, they will do right whenever put in possession of the facts."

"There is no place where more good can be done to the government and to the cause than upon the Chautauqua platform. The people who need information will be there, and more and more as the years go by, persons who can get it are availing themselves of that avenue."

Producing and Saving  
for Fighters.

The folks who make food grow are just about the most important element in the nation's life nowadays. They're providing the basis of the world's activities. From the small garden in the backyard, to the huge acreage of wheat and corn fields, the food producer is helping win the war.

## Hart Schaffner &amp; Marx Clothes

Now, good clothes are an element in winning the war, too. They're not a producing factor but they're a conserving factor. You can save or waste when you buy clothes.

If you get all-wool fabrics, you've saved money and wool; because all-wool wears so much better than anything else that such clothes really cost less, and wear out less wool, than cheap stuff.

You ought to buy and wear Hart Schaffner & Marx clothes for saving reasons.
